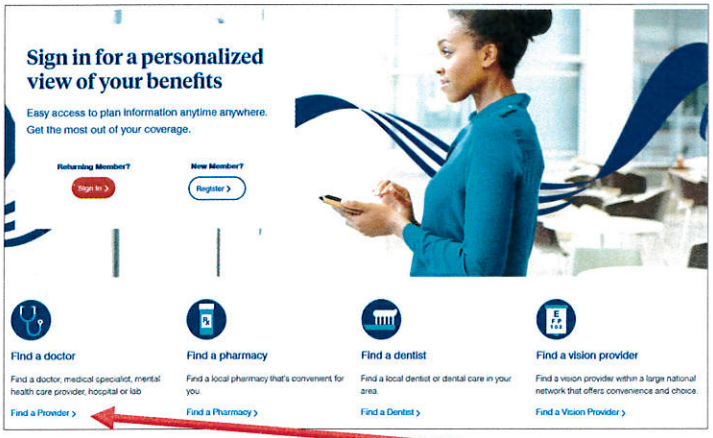
How to Find Network Providers

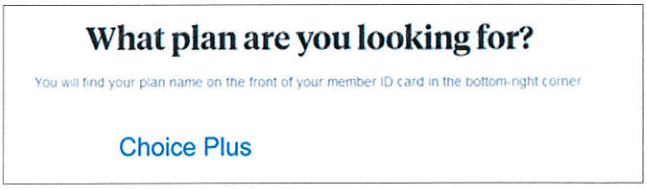
To search for network providers visit www.myuhc.com and follow these steps.



1. On home page, click "Find a Provider" (Under Find a Doctor symbol)

2. Click on Medical Directory or Behavioral Health Directory. Dental Directory does not apply to WHF.

3. Click on "Employer and Individual Plans"



4. Click on "Choice Plus"
(Will be about 10 choices down)

5. Begin your search by entering name, facility, specialty, or condition.
Or click on People, Places Services and Treatments, or Care by Condition and click a few simple questions to see a list of providers.

Once enrolled with WHF and registered with UHC, finding a network provider will be as easy as logging in and clicking on the "Find Care & Costs" tab!

For WHF Customer Service call 1-888-208-8808
